

January 2008

ICFO-The Institute of Photonic Sciences (www.icfo.es) is a center based in Barcelona, devoted to the research and education of the optical and photonic sciences, at the highest international level.

We are currently looking for a:

Biological Lab Technician

The candidate will work in the Biological Lab giving technical support to a Biophotonics Research Group of ICFO that is doing cutting edge research involving cell and molecular biology, biophysics, structural biology and live-cell imaging.

Ideally candidates should be qualified individuals, who take responsibility for complex experiments. The candidate should be able to work independently, be highly motivated, well organized, creative, adaptable, with a strong will to take on new challenges and work well within a highly interdisciplinary and international team.

We are looking for candidates with:

- Graduation (or last year students) in Biology or FP-II in Lab Technician with experience in Bio Labs and in cell cultures.
- Good knowledge of English and excellent communication skills.
- General computing proficiency.
- Experience with nematode culture, neurology and biophysical techniques would be an advantage.

We offer:

- Become a member of a young, fast growing and internationally recognized research institution.
- Two year part-time contract.

Interested candidates are requested to submit their Curriculum Vitae,
preferably by email to:
